

**Personal Information**

Full name	Alexander Fridman	
Current position	Director of A.J. Drexel Plasma Institute	
Organization	Drexel University, Drexel Plasma Institute	
Country	USA	

**Short Biography**

**Alexander Fridman, Ph.D., Dr.Sci.**, is a Nyheim Chair Professor of Drexel University, and director of the A.J. Drexel Plasma Institute in Philadelphia, USA. His research is focused on new plasma approaches to material treatment, fuel conversion, environmental control and bio-medical applications. He is one the world pioneers of Plasma Medicine, and Founding President of the International Society on Plasma Medicine. Professor Fridman is author of eight books on plasma physics, plasma chemistry, plasma medicine, and over 800 papers (total citation index about 27,000, citation h-index 63). He has received numerous awards, including Stanley Kaplan Award in Chemical Kinetics and Engineering Systems, George Soros Award in Physics, Alma Mater Studiorum Award of University of Bologna, DuPont Science and Engineering Prize, International Plasma Medicine Society Award, Distinguished Professorships of University of Illinois, as well as Kurchatov Prize of USSR and the State Prize of USSR.
