

**Personal Information**

Full name	An-Ping Li	
Current position	Senior Research Staff and Theme Leader	
Organization	Center for Nanophase Materials Sciences, Oak Ridge National Laboratory	
Country	USA	

**Short Biography**

An-Ping Li is a Senior Research Staff member and a Research Theme Leader at the Center for Nanophase Materials of Oak Ridge National Laboratory, with an Adjunct Professor appointment in the Department of Physics and Astronomy of The University of Tennessee.

He obtained his PhD degree in physics from Peking University in 1997. His previous research experience includes a Max-Planck-Society Fellowship in Max Planck Institute of Microstructure Physics, and a visiting scientist appointment in Michigan State University. His current research interest is electronic, magnetic, and transport properties of low-dimensional materials.
