

Personal Information

Full name	Daiki Hatanaka
Current position	Researcher
Organization	NTT Basic Research Laboratories
Country	Japan

**Short Biography**

Daiki Hatanaka is a researcher at NTT Basic Research Laboratories in Japan. He received the B.S. and M.S. in Engineering from Osaka University, Japan, in 2008 and 2010, and Ph.D. in Physics from Tohoku University, Japan, in 2016. He joined Basic Research Laboratories, Nippon Telegraph and Telephone (NTT) Corporation in 2010. Since then he has studied dynamic phononic crystals using electromechanical membrane resonators and nano/micro electromechanical resonators based on compound semiconductors. He was awarded *JSAP Outstanding Presentation Award* in 2012, *JSAP Young Scientist Award* in 2015 and *MNC2014 Most Impressive Presentation* in 2015.
