

**Personal Information**

Full name	Ho Kyoon Chung	
Current position	Chair Professor	
Organization	Sungkyunkwan University	
Country	Korea	

**Short Biography**

Dr. Chung is currently Chair Professor and Director of ITRC Next Generation AMOLED Center of Sungkyunkwan University (SKKU). He was previously a full-time Advisor and Executive VP for Samsung SMD, which is dedicated to the R&D and manufacturing of AMOLED products and mobile LCD modules. Prior to that, he was the Executive Vice President and CTO of Samsung SDI and head of Samsung SDI Corporate R&D Center from 2006 to 2008. Dr. Chung led the R&D for Active Matrix OLED (AMOLED) since 2000 and is a world leader in bringing the AMOLED technology into the commercial market. Prior experience includes Managing Director of Memory Product Engineering and Manufacturing Technology Center at Samsung Electronics, Semiconductor Business from 1988 to 1999.

Dr. Chung was decorated with Silver Order of Industrial Service Merit from the President of Korea in December 2011 for his contribution to the One Trillion Dollar Trade of Korea. In April, 2006, he was also decorated with an Order of Merits for advancing the science and technology of Korea. He received the “Distinguished Alumni of the Year Award” from the Electrical and Computer Science Alumni Association of University of Illinois at Urbana-Champaign, USA in September 2008. More recently, he was chosen as the recipient of Karl Ferdinand Braun Prize from the Society for Information Displays, which will be awarded on May 23, 2016. Dr. Chung is a Fellow of the Society for Information Display.

Dr. Chung received a BS in Electronics Engineering in 1973 from Seoul National University, MS in 1977 from Case Western Reserve University and Ph.D. in Electrical Engineering in 1981 from University of Illinois at Urbana-Champaign.
