

Personal Information

Full name	Liang-Yao Chen
Current position	Professor
Organization	Fudan University
Country	China

**Short Biography****Education**

1987, Ph. D. in Physics, Iowa State University
1981, MS in Physics, Fudan University

Research Experience

Study of the optical and magneto-optical properties of solids, including metals, metal alloys, semiconductors, thin films, magnetic and magneto-optical materials by use of many types of optical methods and instrument, such as the ellipsometry, reflectance, Kerr and Faraday spectroscopy and so on in variety of conditions. More than 300 referred research papers were published, over 150 presentations were given, and more than 10 patents were approved.
