

Personal Information

Full name	Weiguo LIU
Current position	Professor
Organization	Xi'an Technological University
Country	China

**Short Biography**

Born in Anhui Province, China in 1964.

BSc in Opto-electronics from Xi'dian University in 1985, MEng in Electronic Physics and Devices from Xi'dian University in 1988, PhD in Microelectronics and Solid State Electronics from Xi'an Jiaotong University in 1995.

Promoted as full professor in 1996 at Xi'an Technological University. Working as visiting scholar at Nanyang Technological University, Singapore from 1999 to 2003.

Research interests including: micro-sensors for infrared detection, applications of plasma and ion beam methods for deposition of optical thin films and for fabrication of super-smooth optical surfaces, fabrication of micro- and nano-structures for optical applications. Measurement and characterization of optical surfaces with super-smooth characteristics or with nano-structures.
