

Personal Information

Full name	Xiaohui Qiu	
Current position	Professor	
Organization	National Center for Nanoscience and Technology, China	
Country	China	

Short Biography

Professor Xiaohui Qiu joined the National Center for Nanoscience and Technology (NCNST), China, in 2006. He is now the director of Key Laboratory for Standardization and Measurement for Nanotechnology, Chinese Academy Sciences (CAS). He earned his Ph.D. from the Institute of Chemistry, CAS in 2000, followed by postdoctoral research at University of California, Irvine, IBM TJ Watson research center, and Ohio State University. His research is focused on single-molecule physics and chemistry studied by scanning probe microscopy, as well as electrical and optical characterization of nanostructured materials.
